1 Discovery Project Summary

Priority	Project Name	Requestor	Description
1	COL – Coliseum Website – Phase6 Enhancements	Joe Furin	Add new features such as photo gallery, photo albums, interactive discussion blog, history timeline, private events and tours page
1	HOU – Create a Mobile Website	Keenan Cheung	Implement a Mobile Website for USC Housing
1	TSP - Enhance Transportation website maps with safety Information	Tony Mazza	Add maps to websites containing safety information.
1	TSP – Online Daily Reservation Edits/Deletes	Tony Mazza	Update Online Daily Reservation System so that users are able to edit and delete their existing reservations (with integration to T2)
1	BKS – Mobile app for catalog	Darren James	Create a mobile app for catalog
1	HOU – Printer Account Management	Keenan Cheung	Authenticate Housing students and manage print services in Housing customer service location.
2	BKS – Additional USCard payment option on BKS website	Rehab Khouri	Add USCard payment option to the USC Bookstore website
2	COL – Mobile Website	Joe Furin	Create a mobile website for Los Angeles Memorial Coliseum & Sports Arena
2	HSP – Rewrite The Lab website	Erika Chesley	Rewrite The Lab website using the same template as The Edmondson
2	HSP – Rewrite Moreton Fig Website	Erika Chesley	Rewrite Moreton Fig website to make it similar to the Edmondson
2	HOU – Implement Meeting Room tablets	Keenan Cheung	Mount tablets to each meeting room door so requesters can view availability
3	UCP – Online Copyright Clearance Center	Darren James	Offer online solution to replace the current software that was initially written around 1990 in older version of VR, which now has limitations that either makes it impossible or difficult to incorporate new functions and to streamline daily functions with CCC.
3	HSP – Create a Mobile App	Kris Klinger	Create a mobile app for USC Hospitality

Bi-Weekly Project Status Report

Page 4

			,
3	BKS – Redesign Gamble House Bookstore	Darren James	Gamble House website is changed with the new design so the bookstore would like to match the Gamble House bookstore website to the Gamble House website
3	AS Energy Consumption Data Repository	Mark Ewalt	Create a data repository to collect historical energy usage for historical/as hoc reporting purposes
3	AS – Add eCommerce to Figueroa Press	Darren James	Currently Figueroa Press users USC Bookstore's eCommerce website to purchase books from Fig Press website. Figueroa Press would like to add eCommerce functionality to their website.
3	BKS – Update Fig Press Website	Tiffany Quon	Update Figueroa Press Website to add a section for upcoming Books
TBD	USC –Admin Ops (CAPS) Event Planning Website	Mark Ewalt	Rewrite the existing Event Planning Website, written by Admin Ops (CAPS), used by USG, FMS, DPS, Fire & Safety, USC Hospitality, USC Transportation, Campus Filming, Protocol & Events, and Student Affairs.
TBD	HOU – Integration with USCard and StarRez for Persona locks	Chris P.	Create a process to capture room card information from USCard to store in StarRez to make it available for Persona.
TBD	HOU – Reuse the student authentication middleware to enable web HBO GO access	Keenan Chang	Duplicate the Shibboleth middleware authentication process to give students HBO GO access on the web and mobile devices
TBD	SS – New Website for Trademarks & Licensing	Matt Curran	Create a new website for Trademarks & Licensing

3 TSP – T2 Point-of-Sale Deployment

Project Description	🛛 On Target 🔲 Concern 🗌 Warning
IT Project Manager: Ruben Khudaverdyan	Business Project Owner: Gabe Badillo
Start Date: 12/12/2015	Target Completion Date: 2/19/2016

During the past several years USC Transportations has been utilizing a "home built" Point-of-Sale (POS) system at the UPC and HSC Gate entrances. With the need to replace existing cash registers and the non-supported POS terminal, USC Transportation has made a decision to purchase complete POS terminals from T2.

The scope of this project is to purchase Point-of-Sale terminals from T2, have NetOps team inspect the hardware, inventory and install the necessary software on the terminals. Terminals will be deployed based on a scheduled accepted by the business unit.

Accomplishments (for previous two weeks)

• Processed PO

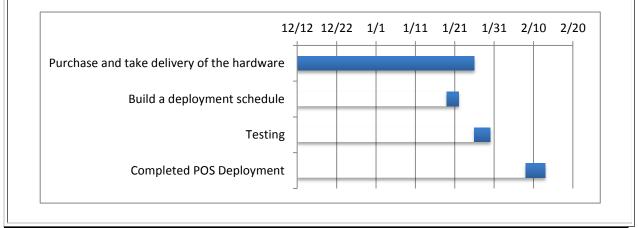

Planned for Next Two Week

- Take delivery of the hardware
- Prepare Scope and

4 RAD – Delphi Implementation

Project Description	🛛 On Target 🔲 Concern 🗌 Warning
IT Project Manager: Ruben Khudaverdyan	Business Project Owner: Scott Reith
Start Date: 12/1/2015	Target Completion Date: *Q2 2016
Start Date: 12/1/2015	Target Completion Date: *Q2 2016

The Radisson Mid-Town Hotel has requested AS IT to implemented a Delphi catering solution. In addition, the scope of the implementation will extend to University Park and Health & Science Campuses. The project will involve the implementation of one catering solutions that would be visible to other catering departments within USC Hospitality.

Accomplishments (for previous two weeks)

- Technical review with the account manager
- Reviewed business requirements

Planned for Next Two Week

• Schedule Application Demo

Open Issues

Milestones

• TBD

5 RAD – Information Digital Display

Project Description	🗌 On Target 🔀 Concern 🗌 Warning
IT Project Manager: Ruben Khudaverdyan	Business Project Owner: Dirk de Jong
Start Date: 12/1/2015	Target Completion Date: *Q1 2016

With the need to replace the existing "Informational Stands" that display daily meeting, conference and banquet rooms information, Radisson Hotel contracted with 22Miles to implement digital signage software that would allow administrators to manage the information via digital screens. Additionally, AVI has been contracted as well to install the necessary hardware for the digital display. The new digital signage displays will enhance the delivery of the information and improve the overall customer experience.

Accomplishments (for previous two weeks)

- Reviewed the technical architecture with Opera and how the digital signage will integrate with Opera PMS
- •

Planned for Next Two Week

- Review the available upgrade options with Carlson.
- Schedule an IT discussion
- Schedule a meeting with 22Miles, Design Studio and Web Team to review templates and design.

Open Issues

- Opera PMS will require an upgrade or Migration to Opera cloud services in order to integrate with the certified version of the Digital Signage.
- Digital Signage Software requires Wi-Fi for communication. The current USC Guest Wireless does not have the capacity to support the necessary requirements. Additionally, the integration with USC Guest Wireless add an additional system into the PCI Scope.

Milestones

TBD

7 AS – 2016 Pre-Audit PCI Assessment

Project Description	🛛 On Target 🔲 Concern 🗌 Warning
IT Project Manager: Frank Juarez	Business Project Owner: Dan Stimmler
Start Date: 11/1/2015	Target Completion Date: 3/30/2016

USC is considered a level 2 Merchant and as such is required to complete an annual Payment Card Industry (PCI) yearly assessment by an external Qualified Security Assessor.

The scope of this project is to work with all credit card processing Business Units (BKS, COL, HOU, HSP, RAD, TRX) and ensure that any new credit card processes are appropriately documented and follow PCI data security standards. Ensure all new 3.1 PCI Data Security Standards are being followed and that all PCI recurring processes are also being followed as documented and reported in previous years

Accomplishments (for previous two weeks)

- Sub team formed to complete SAQ's for Auxiliary Services
- Pre Audit Phone call scheduled

11 SS – AS DataMart Discovery Project

Project Description	🗌 On Target 🔀 Concern 🗌 Warning
IT Project Manager: Frank Juarez	Business Project Owner: Mark Ewalt
Start Date: 6/10/2015	Target Completion Date: 12/30/2015

Auxiliary Services management has expressed a desire to create a flexible reporting environment that will take data from Auxiliary Services source systems and load it into a flexible reporting data environment.

The scope of this project is to work with a consulting organization (Data41) to perform discovery on the various data sources for Auxiliary Services and to create a detailed plan and tools recommendation to build an Auxiliary Services DataMart Reporting environment. The initial target data sources for the first phase of this project are the Agilysys POS, KRONOS timekeeping, and CAPS cost of goods system.

Accomplishments (for previous two weeks)

- Weekly meetings created for Proof of Concept
- KRONOS ETL completed in Development Environment
- Agilysys ETL completed in Development Environment

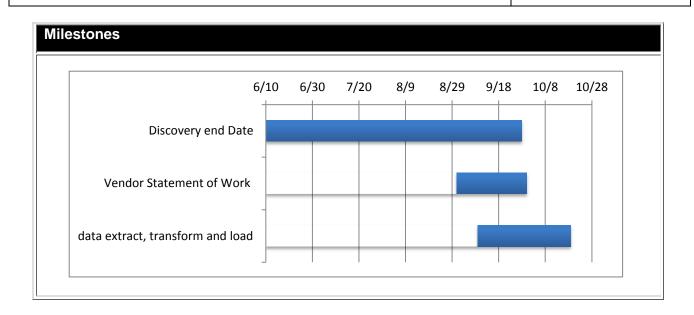

Planned for Next Two Week

- Finalize initial report
- Create production environment with secure link to USCNet
- Implement daily production Agilysys feed
- Impalement daily production KRONOS feed

Open Issues

• Discovery has highlighted data availability issues for many of the source systems. Team to resolve availability issues or re-scope project.

Bi-Weekly Project Status Report

12 HSP – Event Planning Website

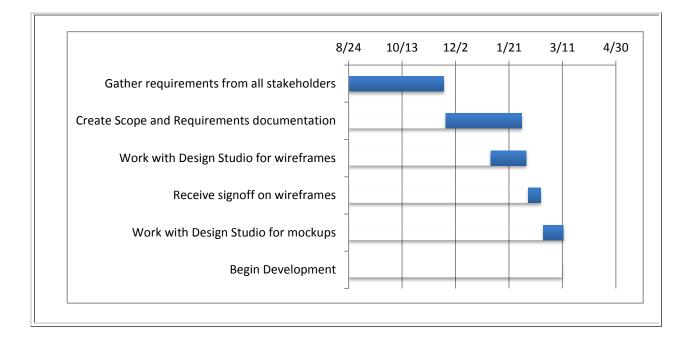

Project Description	🖂 On Target 🔲 Concern 🔲 Warning			
IT Project Manager: Sonali Bodiwala	Business Project Owner: Angela DiBenedetto			
Start Date: 5/15/2015	Target Completion Date: *2016			
Create a new website for Hospitality to manage event planning, to streamline the process. Events are created from Admin Ops website. Currently, hospitality manages these events manually through ndividual email client, which makes it difficult to audit/track events and missing information.				
Accomplishments (for previous tv	vo weeks)			
 Updated the scope and requirem Prepared the list of objects to be approvals required. 	hents document after the meeting with the primary stakeholders added along with the questions for each of the objects and the keholders to provide information on the list of objects.			

- Meet with the remaining owners to get their sign off on the scope document
- After final signoff from the owners, send the scope document to all stakeholders
- Send the document to Design Studio for wireframes once scope is approved

Milestones

13 BKS – Create a Mobile Friendly Website

Project Description	🛛 On Target 🔲 Concern 🗌 Warning
IT Project Manager: Sonali Bodiwala	Business Project Owner: Holly Bedwell
Start Date: 5/1/2015	Target Completion Date: 2/29/2016

With the recent changes on 4/21 to Google's search engine, if a website is not 'mobile friendly', it may not show up on Google's search results or may be displayed with lower score.

The Scope of this project is to create a mobile friendly website for USC Bookstore.

Accomplishments (for previous two weeks)

• Continued testing by the bookstore team.

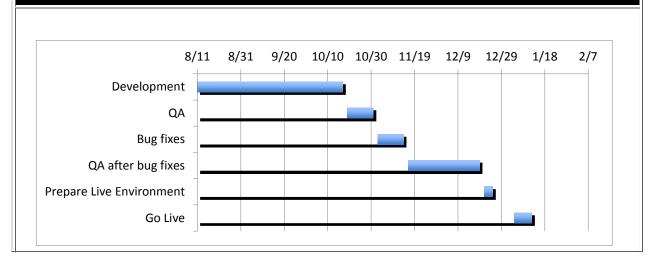

Planned for Next Two Week

- Receive feedback from the bookstore if there are any functional issues.
- Work with the bookstore team to resolve the issues.

Open Issues

• Resource availability at the bookstore

Milestones

22 SS – Disaster Recovery Program

Project Description	🛛 On Target 🔲 Concern 🗌 Warning
IT Project Manager: Frank Juarez	Business Project Owner: Mark Ewalt
Start Date: 4/1/2014	Target Completion Date: 9/15/2014 **On Hold**

Currently the AS IT team backs up data from our storage devices and file servers to a local SAN device located in the Carol Little building. Although having data backups gives us some capability for recovering any lost data it does not give us the ability to recover data and resume systems operations if the Carol Little building or the ITS data center is compromised or unable to function due to local emergencies effecting its operations.

AS IT Disaster Recovery Program Description

This program will limit the disruption to our Auxiliaries organization in the wake of a disaster or other critical outage. This plan once fully implemented will allow the organization to quickly resume mission-critical functions, and minimize the negative effects of a disaster. These file servers; storage devices and other critical system will be located at our offsite co-location facility located in Arizona.

Benefits

- Restoration of Servers.
- Restoration of Network Storage devices
- Restoration of critical Business Systems.
- Re-provisioning of the Auxiliaries Local Area Network to meet the immediate business needs.
- Minimize the down time during any disaster or critical outage.

Accomplishments (for previous two weeks)

- Continue configuration of replication sites
- Requested switch replacement configuration from ITS
- Replace faulty switch at SunGard, AZ
- Continue replication testing and confirm functionality
- Begin initial Technical documentation

Planned for Next Two Week

• ** Due to project resource availability and higher priorities this project is being temporarily put on hold **

Open Issues
